

Eurest

**Nourishing &
Stimulating Workforces**

Health-focused & workplace-led food services

At Eurest, we've always understood the power of food - to **refuel and refresh, engage, activate and motivate.**

We're using that power to help workers across Australia live healthier, happier and more productive lives with a new approach to workplace catering.

Our solutions are all about **creating a positive impact** to our partners, their workplaces, and the planet we share.

Our business at a glance

The Eurest team are the specialist workplace catering brand of Compass Group, the world's largest contract catering organisation.

In Australia, our business proudly boasts:

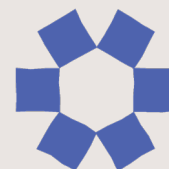

40+ years

local
experience

2,100+

team
members

108

operating
client locations

2,200+

suppliers in
our chain

A man with a beard and mustache, wearing a white chef's coat and a green apron, is smiling and holding a wooden tray with four sandwiches. The apron has the text "Food to take you further." and a logo. The background shows a modern office environment with people sitting at tables and a large window.

Keeping people full of energy & enthusiasm

Fueling your employees throughout the day helps sharpen their thinking, nourishes their bodies and minds, nurtures social culture and ultimately motivates them to perform at their best.

Whether we're serving retail cafe employees at a fast-paced distribution center or stocking one of our micromarkets in a corporate office, we serve great food that has the power to take your business and people further.

Workplace Cafe Services

Our cafe services offer much more than just freshly brewed coffee, with a range of balanced drinks and snacks to nourish workers all day long. From fresh fruit smoothies to deli sandwiches, wraps, salads and more, our cafe services have everything workers need to stay refueled and connect with colleagues over lunch.

As experts in retail we have a catalogue of easy to implement brands to spark engagement from staff and inject a new lease of life to cafe and dining spaces.

Unattended Micromarkets

We believe that fueling your appetite and meeting your nutritional needs at work should be as easy as pressing a button. With flexible, convenient and accessible solutions available around the clock, our micromarkets keep fresh meals and hot drinks at your teams fingertips, whenever they need them.

Cost-saving, convenient and nutritious - the modular design and completely self-serve experience means almost any space can be transformed to serve even the busiest of workspaces.

The range of chilled, heat-to-eat and grab and go options can be customised to your teams tastes to keep them fueled for success at all times.

Cost Saving

Our micromarkets are not only a great way to guarantee the provision of consistent and nutritious food around the clock - they are operationally optimised and can deliver significant cost savings over traditional canteen or cafe services.

Case Study

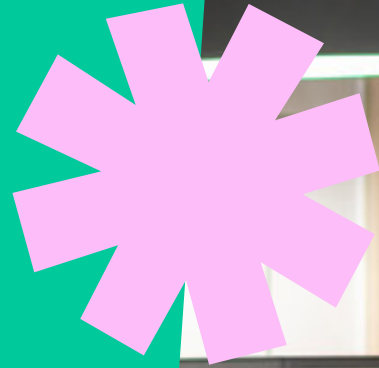

To expand the offering we had in place for an existing national client, we introduced micromarkets to seven of their distribution centers.

This introduction not only extended F&B provision around the clock for shift workers, it resulted in a reduction of over 200 staff hours per week and an estimated labour **saving of circa \$355,000 per year**,
